

**MICHIGAN CIVIL SERVICE COMMISSION
JOB SPECIFICATION**

STATE POLICE LABORATORY MANAGER

JOB DESCRIPTION

Employees in this job function as managers in the Michigan State Police Forensic Science Division. Typical assignments are carried out in a laboratory environment. The work requires knowledge of analytical techniques used in scientific analysis in a forensic science laboratory, knowledge of law enforcement management, and knowledge of supervisory techniques, and personnel policies and procedures. State Police uniform personnel have the authority to enforce the general criminal laws of the state and may be used in other law enforcement areas in case of an emergency.

There are two classifications in this job.

Position Code Title – State Police Laboratory Manager-3

State Police Laboratory Manager 14

The employee functions as either a manager of forensic scientists and technicians or as a manager of uniform specialists in a State Police Forensic Laboratory.

Position Code Title – State Police Laboratory Manager-4

State Police Laboratory Manager 15

The employee functions as either a program coordinator for a forensic specialty and a manager of forensic scientists and technicians, or as a program coordinator for a forensic specialty and a manager of uniform specialists, in a State Police Forensic Laboratory.
